

Counterfeit Policy Statement

Orbit Distribution Limited recognises that the counterfeiting of components is a serious problem that has a negative impact on the worldwide economy and can jeopardise the safety of equipment manufactured. As such Orbit is committed to preventing the introduction of counterfeit electronic components to the supply chain wherever possible.

In order to achieve this, we request all our suppliers / partners follow the measures listed below.

- All components shall be purchased from the Original Equipment Manufacturer (OEM), where this is not possible;
- Parts shall be purchased from authorised distributors, where this is not possible;
- Parts shall be purchased from approved vendors only.
- All parties in our supply chain shall maintain appropriate processes to isolate, quarantine, report and remove counterfeit components.
- Investigate all incidents of suspected counterfeit electronic components and report the incident and outcome to the Orbit Quality Manager.
- Make unusable all material confirmed as counterfeit and provide evidence to the Orbit Quality Manager.
- Ensure all staff involved in the procurement, inspection and storage of electronic components are trained in the techniques of identifying counterfeit components.

These objectives have been communicated to all employees of Orbit as well as those working on its behalf.
